

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

GBP “Class B5” Shares of TT Environmental Solutions Fund (the “Fund”) (ISIN: IE00BMGL3675)

A share class of a sub-fund of TT International Funds plc (the “Company”)

The Company is managed by Carne Global Fund Managers (Ireland) Limited (the “Manager”)

Objectives and Investment Policy

- The investment objective of the Fund is to produce long term capital growth that reflects the investment performance of the overall global equity markets while adhering to certain environmental investment criteria.
 - The Fund invests in a diversified portfolio of equity and equity-related securities such as depository receipts, American depository receipts, global depository receipts, single and index stock participation notes or other securities having equities as the underlying instrument i.e. equity linked notes, fully-funded equity swaps and convertible bonds, which are traded in equity markets around the globe and are issued by companies identified by TT International Asset Management Ltd (the “Investment Manager”) as providing solutions to environmental problems and which the Investment Manager also believes have sound prospects for sustainable growth and represent value in the form of assets and earnings.
 - The Fund will seek to invest over 50 per cent. of its assets in issuers that generate at least 50 per cent. of revenues or operating profits from activities which contribute to the solution of an environmental problem. However, the Fund may also invest up to 50 per cent. of the Net Asset Value of the Fund in companies that are making a material improvement to environmental issues but whose revenues or operating profits from such activities do not yet account for 50 per cent. of such companies' business.
 - The main environmental themes targeted will be in the following sectors: (i) clean energy; (ii) clean transport; (iii) forestry and agriculture; (iv) responsible consumption; (v) recycling and circular economy; (vi) sustainable use and protection of water; and (vii) electrification, electrical and industrial efficiency. However, the Investment Manager will have discretion to identify additional sectors that contribute to the solution of an environmental problem.
 - Up to 20 per cent. of the Net Asset Value of the Fund may be invested in cash and cash equivalent assets (which may include Money Market Instruments) where, by way of example, it is necessary to support financial derivative instrument (“FDI”) exposure or where in view of market conditions the Investment Manager may seek to adopt a defensive investment strategy.
 - The Fund may buy and sell futures and options (comprising options on futures, options on equity indices and exchange-traded funds and stock options) in pursuit of the investment objective and to gain exposure to the instruments listed above as well as for efficient portfolio management purposes.
 - The Fund may participate in initial public offerings of the equity and equity-related securities listed above.
 - The convertible bonds in which the Fund invests will be issued by corporates worldwide and may be fixed and floating rate and non-investment grade. Non-investment grade debt securities are debt securities that are rated BB+ or lower by a rating agency, or are unrated but determined by the Investment Manager to be of comparable quality.
 - Up to 10 per cent. of its Net Asset Value of the Fund may be invested in certain collective investment schemes.
 - Recommendation: due to the entry charge and exit charge which may be payable on the issuance and repurchase of Shares, an investment in the Fund should be viewed as medium to long term.
 - The Fund may use certain FDIs for hedging, investment and efficient portfolio management purposes.
 - The performance of the Fund may be strongly influenced by movements in foreign exchange rates.
 - The Fund is actively managed. It uses the MSCI ACWI Index (the “Benchmark Index”) as “comparator benchmark” against which to compare the performance of the Fund. The Benchmark Index does not take into account environmental, social and governance factors and has not been designated for the purposes of attaining the sustainable investment objective of the Fund.
 - You may buy and sell Shares on any day on which banks are open for business in Dublin and London.
 - The Class B5 Shares are an accumulation share class and the net income attributable to the shares shall be retained within the Fund and the value of the shares shall rise accordingly.
- For full Investment objective and policy details, as well as investment restriction details, please refer to the “Investment Objective and Policies” section of the Fund’s Supplement and the “Investment Restrictions” section of the Prospectus.

Risk and Reward Profile

Lower risk ← Higher risk
Typically lower rewards Typically higher rewards

The Synthetic Risk and Reward Indicator (“SRRI”) table above shows how the Fund ranks in terms of potential risk and return. It is not a measure of the risk of capital loss but is essentially a measure of the previous ups and downs in value of the Fund.

Please note that:

- historical data used in calculating the SRRI may not be a reliable indication for how the Fund will perform in the future;
- the risk category shown is not guaranteed to remain unchanged and may shift over time;
- even the lowest category does not mean your investment is ‘risk free’;
- investing in Russian based securities involves additional risks (including but not limited to, Political and Economic Risks, Commercial and Credit Risks, Liquidity risks, Legal and Regulatory Risks, Counterparty Risk and Operational Risks);
- investing in emerging markets involves additional risks and special considerations not typically associated with investing in other more established economies or securities markets (including, less liquidity and operational risks); and
- there are risks associated with the financial and economic crisis affecting the European Monetary Union and the global impacts of the COVID-19 pandemic.

The SRRI of the Fund is ranked at 6. The Fund is in category 6 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are risks materially relevant to the Fund which are not adequately captured by the SRRI:

- FDI Risk:** FDI may fluctuate in value rapidly and leverage through FDI may cause losses that are greater than the original amount paid for the relevant FDI.
- Operational Risk:** human error, system and/process failures, inadequate procedures or control may cause losses to the Fund.
- Liquidity Risk:** the Fund may have difficulty buying or selling certain securities readily which may have a financial impact on the Fund.
- Credit/Counterparty Risk:** a party with whom the Fund contracts for securities may fail to meet its obligations (e.g. fail to pay principal or interest or to settle an FDI) or become bankrupt, which may expose the Fund to a financial loss.

For more information on these and other risk factors that apply to the Fund, see the section entitled “Risk Factors” in the Prospectus.

Charges for this Fund	
The charges you pay are used to pay the costs of running the Fund including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.	
One-off charges taken before or after you invest:	
Entry Charge	0.40%
Exit Charge	1.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year:	
Ongoing Charges	1.02%
Charges taken from the Fund under certain specific conditions:	
Performance fee	None
<p>The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser or distributor. An exchange charge may apply to the exchange of shares of up to but not to exceed 0.40%.</p> <p>The ongoing charges figure shown is based on a commitment by the Investment Manager to limit the ongoing charges of the share class during the year. This commitment may be lifted at any time upon prior notice to shareholders. This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking. The exact charges will be included in the financial statements for each year.</p> <p>For more information about charges, please see section entitled Fees and Expenses of the Prospectus, which is available at www.ttint.com.</p>	
Past Performance	
The Fund was launched in 2020. As the Class B5 Shares do not yet have performance data for one complete calendar year, there is insufficient data to provide a useful indication of past performance to investors.	
Practical Information
