Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The Synthetic Risk and Reward Indicator ('SRRRI') table above shows how the Fund ranks in terms of potential risk and return. It is not a measure of the risk of capital loss but is essentially a measure of the previous ups and downs in value of the Fund.

Please note that:

- historical data used in calculating the SRRRI may not be a reliable indication for how the Fund will perform in the future.
- the risk category shown is not guaranteed to remain unchanged and may shift over time.
- even the lowest category does not mean your investment is 'risk free'.
- investing in Russian based securities involves additional risks (including but not limited to, Political and Economic Risks, Commercial and Credit Risks, Liquidity Risks, Legal and Regulatory Risks, Counterparty Risks and Operational Risks).
- there are risks associated with the financial and economic crisis affecting the European Monetary Union.

The SRRRI of the Fund is ranked at 5. The Fund is in category 5 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are risks materially relevant to the Fund which are not adequately captured by the SRRRI:

- **FDI Risk:** FDI may fluctuate in value rapidly and leverage through FDI may cause losses that are greater than the original amount paid for the relevant FDI.
- **Operational Risk:** human error, system and/process failures, inadequate procedures or control may cause losses to the Fund.
- **Liquidity Risk:** the Fund may have difficulty buying or selling certain securities readily which may have a financial impact on the Fund.
- **Credit/Counterparty Risk:** a party with whom the Fund contracts for securities may fail to meet its obligations (e.g. fail to pay principal or interest or to settle an FDI) or become bankrupt, which may expose the Fund to a financial loss.

For more information on these and other risk factors that apply to the Fund, see the section entitled "Risk Factors" in the Prospectus.
