## EUR "Class I" Shares of TT Emerging Markets Unconstrained Fund (the "Fund") (ISIN: IE00BD9X3017)

**A Share Class of a sub-fund of TT International Funds Plc (the "Company").**

**The Company is managed by Carne Global Fund Managers (Ireland) Limited (the "Manager").**

### Objectives and Investment Policy

- The investment objective of the Fund is to produce long-term capital growth.
  - The Fund invests in a diversified portfolio of equity and equity-related securities such as depository receipts, American depository receipts, global depository receipts, single and index stock participation notes or other securities having equities as the underlying instrument i.e. equity linked notes (not containing embedded derivatives), fully-funded equity swaps and convertible bonds, which are or for which the underlying securities are traded in the MSCI Emerging Markets Horizon Index or the MSCI Emerging Markets Index (the "**Benchmark Index**").
  - The Fund may also invest in securities which are not included in the Benchmark Index, including equities or equity related securities: (a) where the issuer in question has its registered office or domicile located in countries listed in the Benchmark Index; or (b) listed or traded on any recognised global exchange where the issuer in question, in the opinion of TT International Asset Management Ltd (the "**Investment Manager**"), derives more than 50% of its assets, sales or profit from countries within the Benchmark Index, or (c) any security listed or traded on a recognised global exchange where the issuer in question, in the Investment Manager's opinion, carries out more than 50% of its economic activities in countries within the Benchmark Index.
  - The Fund may invest in hybrid fixed-income debt securities including non-investment grade debt securities of corporate and government issuers worldwide although not more than 5% of the Net Asset Value of the Fund may be so invested. Non-investment grade debt securities are debt securities that are rated BB+ or lower by a rating agency, or are unrated but determined by the Investment Manager to be of comparable quality.
  - While the Fund may also invest in equity-related securities such as warrants, convertible bonds, futures and options, this is not expected to have a material impact on the leverage or volatility of the Fund.
  - The Fund may buy and sell futures and options (comprising options on futures, options on equity indices and exchange-traded funds and stock options) in pursuit of the investment objective and to gain exposure to the instruments listed above as well as for efficient portfolio management purposes.
  - The Fund may participate in initial public offerings of the equity and equity-related securities listed above.
  - Up to 10% of its Net Asset Value may be invested in certain collective investment schemes.
  - The Fund may use certain financial derivatives instruments ("**FDI**") for hedging, investment and efficient portfolio management purposes. The performance of the Fund may be strongly influenced by movements in foreign exchange rates.
  - The Fund is actively managed. It uses the Benchmark Index to assist in the determination of the universe from which to select securities as outlined above, as a target to outperform and/or for future performance comparison purposes in marketing literature. The Investment Manager may make discretionary choices when deciding which investments should be held by the Fund, subject to the Fund's investment objective, policy and restrictions.
  - You may buy and sell shares any day on which banks are open for business in Dublin and London.
  - The Class I Shares are an accumulation share class and the net income attributable to the shares shall be retained within the Fund and the value of the shares shall rise accordingly.
- For full Investment objective and policy details, as well as investment restriction details, please refer to the "**Investment Objective and Policies**" section of the Fund's Supplement and the "**Investment Restrictions**" section of the Prospectus.

### Risk and Reward Profile

The Synthetic Risk and Reward Indicator ("**SRRI**") table above shows how the Fund ranks in terms of potential risk and return. It is not a measure of the risk of capital loss but is essentially a measure of the previous ups and downs in value of the Fund.

Please note that:

- historical data used in calculating the SRRI may not be a reliable indication for how the Fund will perform in the future.
- the risk category shown is not guaranteed to remain unchanged and may shift over time.
- even the lowest category does not mean your investment is 'risk free'.
- investing in Russian based securities involves additional risks (including but not limited to, Political and Economic Risks, Commercial and Credit Risks, Liquidity Risks, Legal and Regulatory Risks, and Operational Risks).

- investing in emerging markets involves additional risks and special considerations not typically associated with investing in other more established economies or securities markets (including, less liquidity and operational risks).

The SRRI of the Fund is ranked at 6. The Fund is in category 6 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are risks materially relevant to the Fund which are not adequately captured by the SRRI:

- FDI Risk:** FDI may fluctuate in value rapidly and leverage through FDI may cause losses that are greater than the original amount paid for the relevant FDI.
- Operational Risk:** human error, system and/process failures, inadequate procedures or control may cause losses to the Fund.
- Liquidity Risk:** the Fund may have difficulty buying or selling certain securities readily which may have a financial impact on the Fund.
- Credit/Counterparty Risk:** a party with whom the Fund contracts for securities may fail to meet its obligations (e.g. fail to pay principal or interest or to settle an FDI) or become bankrupt, which may expose the Fund to a financial loss.

For more information on these and other risk factors that apply to the Fund, see the section entitled "Risk Factors" in the Prospectus.
