➤ What is this product?

Type: This Fund is a UCITS.

Term: No fixed term.

Objectives: The investment objective of the Fund is to produce long term capital growth that reflects the investment performance of the overall global equity markets while adhering to certain environmental investment criteria.

The Fund is actively managed.

The Fund seeks to achieve its investment objective by investing in a diversified portfolio principally comprised of Sustainable Investments of primarily equity and equity-related securities traded in equity markets around the globe as listed in Appendix I of the Prospectus, which are issued by companies identified by the Investment Manager as providing solutions to environmental problems and which the Investment Manager also believes have sound prospects for sustainable growth and represent value in the form of assets and earnings.

The equity and equity related securities in which the Fund may invest include common stocks, preferred stocks, warrants and fixed and floating rate convertible bonds.

The Investment Manager has determined that the Fund qualifies as a Dark Green (Article 9) Fund. In targeting Sustainable Investments, the Fund will seek to invest over 80 per cent. of its invested capital in issuers that generate at least 50 per cent. of revenues or operating profits from activities which contribute to the solution of an environmental problem. However, the Fund may also invest up to 20 per cent. of its invested capital in companies that are making a material improvement to environmental issues but whose revenues or operating profits from such activities do not yet account for 50 per cent. of such companies' business.

The main environmental themes targeted will be in the following sectors: (i) clean energy; (ii) clean transport; (iii) forestry and agriculture; (iv) responsible consumption; (v) recycling and circular economy; (vi) sustainable use and protection of water; and (vii) electrification, electrical and industrial efficiency. However, the Investment Manager will have discretion to identify additional sectors that contribute to the solution of an environmental problem.

You may sell your shares on any day on which banks are open for business in Dublin and London.

The Fund may be terminated at any time upon prior notice to the Shareholders.

Intended retail investor: The Fund is suitable for both professional clients and retail clients, as those terms are defined pursuant to Markets in Financial Instrument Directive (DIRECTIVE 2014/65/EU).

Depository: The Fund's assets are held through its Depository, which is Northern Trust Fiduciary Services (Ireland) Limited.

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average and best performance of the product/benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

| Example investment: \$ 10,000 | | 1 year | 5 years |
|---|---|-----------|-----------|
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress Scenario | What you might get back after costs | \$ 4,960 | \$ 3,730 |
| | Average return each year | -50.38% | -17.91% |

➤ What happens if TT International Asset Management Ltd is unable to pay out?

In the event of an insolvency of the Fund or the Company, there is no guarantee that the Fund or Company will have sufficient funds to pay unsecured creditors in full.

➤ What are the costs?

Cost over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 is invested

| Example investment: \$ 10,000 | If you cash in after 1 year | If you cash in after 5 years |
|-------------------------------|-----------------------------|------------------------------|
| Total costs | \$ 278 | \$ 1,258 |
| Annual cost impact(*) | 2.79% | 1.63% |

(*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.33% before costs and 10.70% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

| The table shows the impact on return per year | | If you exit after 1 year | |
|--|---|---|--------|
| One-off costs upon entry or exit | Entry costs | 0.40% of the amount you pay in when entering this investment. | \$ 40 |
| | Exit costs | 1.00% of your investment before it is paid out to you. | \$ 100 |
| Ongoing costs taken each year | Management fees and other administrative or operating costs | 0.81% of the value of your investment per year. This is an estimate based on actual costs over the last year. | \$ 81 |
| | Transaction costs | 0.56% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | \$ 56 |
| Incidental costs taken under specific conditions | Performance fees and carried interest | There is no performance fee for this product. | \$ 0 |

➤ How long should I hold it and can I take my money out early?

The recommended minimum holding period: 5 years.

The Fund is designed to be held over the medium to long term and we recommend that you hold this investment for at least 5 years.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the Fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

➤ How can I complain?

If you have any complaints about the product, the conduct of the PRIIP manufacturer or the person advising on, or selling the product, complaints can be lodged via the following methods:

i. E-mail: ttcomplianceteam@ttint.com

ii. Mail: TT Compliance, TT International, 62 Threadneedle Street, London, EC3N 4AL
